The IAG Reports (Travaux de l'Association Internationale de Géodésie) are published on the occasion of the IAG General and Scientific Assemblies every two years and contain the reports of all IAG components and sub-components. They were published as printed volumes until 2003 (since 1991 also available in digital form) and since 2005 online only at <http://www.iag-aig.org/travaux> and at <http://office.iag-aig.org/iag-publications-reports-position-papers>. Printed versions may be ordered at the IAG Office ([iag.office@maanmittauslaitos.fi](mailto:iag.office@maanmittauslaitos.fi)).

## Geodetic Data Centres

The IAG Communication and Outreach Branch (COB) compiles and maintains a list of **Geodetic Data Centres**. All data compiled in this list are regularly revised by the IAG National Correspondents.

Considering the fact that addresses are subjected to frequent changes, the directory is stored as a file in the web to sustain the possibility of updates whenever useful. All information is also available at the IAG Website (<https://www.iag-aig.org/geodetic-data-centers>).

All available data are stored in the IAG Website as soon as the responsible National Correspondent sends them to the IAG COB (address see below). All National Correspondents are kindly asked to inform the COB<sup>1</sup> on any change.
